

Singapore Workshop on Antennas

02 – 03 December 2024, Singapore

www.swa2024.org

CALL FOR EXHIBITION & SPONSORSHIP

Dear Valued Exhibitors and Sponsors,

The **2024 Singapore Workshop on Antennas (SWA 2024)** will take place in Singapore from December 2 to 3, 2024. This workshop is a unique event dedicated to antennas, featuring insightful keynote presentations and selected technical talks by young professionals (YPs) and students. Over the course of two days, the workshop aims to address significant matters within the antenna community, facilitate the exchange of research knowledge and findings, and encourage collaborative efforts among participants.

SWA 2024 will extend invitations to esteemed speakers from around the world, ensuring a premier platform for knowledge exchange, catering to both academia and industry. This workshop will comprehensively address various facets of antennas, encompassing a wide range of topics such as antenna design, modeling, simulation, management, measurement, and education. By embracing these diverse aspects, SWA 2024 aims to offer a high-quality forum that accommodates the needs and interests of participants from various backgrounds.

The Workshop provides an excellent opportunity for your company to showcase cutting-edge hardware, software, technologies, products, services, and solutions on a global platform. As the Exhibition & Sponsorship Chair of this Workshop, I warmly invite you to participate in the exhibition and generously contribute as a sponsor. This event ensures that our sponsors receive unparalleled exposure to the most influential engineering audiences in wireless communication technologies, providing you with an ideal stage to publicize your company and elevate your brand recognition.

The patronage package (SGD \$2,000 exclusive GST) comprises on-site table demonstration, complimentary registration, company logo inclusion, and more.

Please visit the workshop website at <https://www.swa2024.org> or contact the Exhibition & Sponsorship Chair, Dr. Richard Xian-Ke Gao, at gaoxk@ieee.org for more information.

We look forward to hearing from you, and eagerly anticipate your presence at the Singapore Workshop on Antennas 2024!

Richard Xian-Ke Gao

Exhibition & Sponsorship Chair, SWA 2024
